

New guitar learning method makes it possible to...

“Learn To Play Worship Guitar Like A Pro In Just 10 Days Practicing Only 30 Minutes A Day”

A former Nashville pro's guaranteed secret for learning worship guitar the easy way

[zoom in on a guitar sitting on a stand by itself in a room]

How would it feel to be able to just pick up a guitar

...and worship God with music that you create.

Or to have the skill to play all the worship songs you love?

[zoom in on a worship guitar player on stage]

Imagine being able to stand on stage and lead your church in worship.

Well...over the next few minutes, I'm going to reveal...

...a way for you to do all those things.

In fact, you'll be playing worship guitar like a pro in just 10 days.

[default background]

Hi. My name is Jared Messer.

And welcome to this special video training series.

You're about to discover a brand new method for learning worship guitar.

It fast...easy to follow.

And delivers professional sounding results...

...for anyone.

[globe]

Right now it's transforming the way people learn rhythm guitar for worship all over the world...

And by the time you've finished watching this video...

...you'll know exactly how it works.

[default background]

I'm a former Nashville musician, a worship leader and a teacher...

[scroll youtube]

And I began to see that the normal method for learning guitar online was broken.

It didn't see a complete solution...

...but just a mix of lessons that left most of the work the student's shoulders.

[default background]

Well I wanted to fix those things...

I wanted a system that would make it easy for anyone, at any skill level to learn fast and sound professional.

[something about creative]

I spent 6 months thinking, creating, experimenting, and fine tuning...

Until I was able to boil it all down to the just 3 core elements...

[default]

The result was the method I'm going to tell you about.

And I've been blown away by the responses...

I have never experienced such fast progress as in the 10-day Fast Track training....

Many times in the past I was wondering how to get that "contemporary" sound like the Pros and now with your immense help I have the understanding and skill sets to now lead worship with the contemporary sound and have already started teaching others what I've learned.

[default]

So how does it work?

Well...my method has 3 phases that focus on those 3 core skills,

Learn. Try. and Practice.

This is what makes my method so unique and effective.

Learn

[Sample video from the course]

Each “Learn It” Session is short, to the point, and has on screen graphics so it’s super easy to follow.

You’ll learn to form each chord exactly the same way the pros do.

Chris Tomlin, Matt Redman, Hillsong, Vertical Church, Elevation Worship...you name it.

[Empty stage in Nashville]

God blessed me with the chance to work directly with A-list studio players and professional touring musicians in Nashville.

And standing on stage...playing alongside some of the best musicians in the world...

...taught me a lot!

And in the “Learn It” videos, I pass that knowledge on to you.

[up close view of guitar fingering]

When you finish each “Learn It” Session you’ll know exactly how to form each chord the right way to get a professional, contemporary worship sound.

[default]

The second phase: “Try”.

Some people don't know this...but there are lots of things you need to get right for your chords to ring out and sound good.

[Frustration playing guitar chords]

You gotta push the right strings down in the right way...

You gotta know how to position your hand so you don't hit other strings and accidentally dampen them.

And you gotta know how to mute the strings you don't want to ring out...

And you need to know these things for every single chord...

It's a lot to remember and not easy to do on your own.

But my "Try It" sessions actually make this easy to grasp.

Here's how they work:

[more sample videos from the course]

For every video in the "Learn It" phase, there's a corresponding "Try It" video.

In each one, I walk you through playing the chord and explain every detail.

This allows you to avoid all those common, frustrating mistakes...

...and shows you exactly how to get every chord to ring out.

And this is what's amazing.

As you walk through the "Try It" videos with me...

...you'll begin to feel your fingers landing in the right position without even thinking.

These session only lasts about 10 minutes.

But even in that short amount of time, the "Try It" sessions will lock each chord in your mind...

...so you never forget how to play them perfectly.

Phase 3: "Practice".

This is where we crush the biggest challenge for new players...

...changing chords.

It's very common for people to quit at this stage...

...and there are two reasons why.

1. Not knowing exactly WHAT to practice.

2. Not knowing exactly HOW to practice.

Our "Practice It" sessions change all that.

That's because we've built in all the practice sessions you'll ever need...

And I lead you in each one....so you'll be practicing with me.

All you have to do is start the session and follow along.

There are "Practice It" videos for every chord change you'll encounter in contemporary worship music.

What we're doing is compressing your practice...

...into short, focused, muscle memory sessions.

This keeps you from getting bored...

guides you so you stay on track...so you save time.

...and reinforces your muscle memory for every chord change.

This means you'll learn faster with less practice time.

There is nothing else like It.

Learn. Try. Practice. Or LTP for short.

The *LTP Worship Guitar System* is hands down, the easiest and fastest professional worship guitar learning method I've ever seen.

[happy people playing guitar]

The question is:

Are you ready to learn to play rhythm guitar for worship like a pro?

If so, let me to tell you everything you'll get with the *LTP Worship Guitar System*...

[website url...and logging in video]

Once you login to our website...

you'll have unlimited access to my pro level "Learn It" sessions where you'll get all the contemporary worship chords in the key G, C, D, and E.

It's a total of 27 professional worship chords clearly explained with no fluff or wasted time.

[Learn It sample]

They're all in HD with on screen graphics to make it super easy to follow.

[default]

You'll also have unlimited access to my "Try It" sessions...

[try it sample]

...where I'll walk you through every chord so you'll understand exactly how to form and strum each one to get a clean, full sound.

The sessions will build up your finger strength...and lock those chords in your mind.

[default]

You'll also have unlimited access to my "Practice It" sessions where you'll start changing chords almost right away.

[practice it sample]

You'll be practicing with me in every session...so all you have to do is hit play and follow along.

All the practice you ever need is built in.

[default]

27 "Learn It" sessions, 27 "Try It" Sessions, 42 "Practice It" Sessions (200 Practice videos in all!)...

But...I wasn't satisfied with just teaching you to play rhythm guitar.

I wanted you to be able to go even deeper.

So I included my Music Theory Made Simple module as well.

[sample clips of music theory video]

These videos will give you a deeper understanding of music...

And make you a more well rounded musician.

The Music Theory Made Simple videos are also in HD with on screen visuals....so you'll very clearly see things like...

[default]

intervals, forming scales, key signatures, triads, color chords, and more.

[back to music theory videos]

All explained in plain, easy to understand language so they're accessible to beginners...

[default]

So you'll get instant access to all the "Learn It", "Try It", and "Practice It" videos (more than 250 in all!)...AND the Music Theory Made Simple module...

But I wanted to give you EVEN more...

That's why I've included 9 bonuses that go even further!

[Video sample]

BONUS #1 is video called "The Most Valuable Tool".

In this bonus video, you'll learn about capo, why it's so useful, and the right way to use it to unlock your ability to play in any key!

[default]

BONUS #2 is a tool I created called "The Capo Cypher Sheet"

[sample of the cypher sheet]

Once you learn how to use the capo, it's not always easy to quickly know which fret to put it on to get to the key you want...

At best it can be a guessing game to find the right fret.

But with the "Capo Cypher Sheet" you can avoid all that.

It'll show you exactly where to put the capo to get to the key you want...

...without guessing.

It's almost like having a transpose button for your guitar.

[default]

BONUS #3, 4, and 5 are videos about working with chord charts, lead sheets, and number charts.

[How to read chord charts system video sample]

They give tips and insights on how to read them and lay the foundation for you to create them yourself.

[default]

BONUS #6 is a video called "Rhythm Guitar Dynamics"

In this bonus video you'll learn tactics for playing in different section of various types of worship songs.

What would you play on the verse of a slow song?

What might you play on the bridge of an uptempo song?

What about the channel? What about the intro or the outro?

This video will help you know how to plan for these moments and play them the right way.

[default]

BONUS #7 is a video called "The Role of the Rhythm"

You might be playing by yourself, with a band, or in a smaller group with just a few pieces.

[Video sample]

This video will give you a strategy to prepare for each and how a pro would handle them.

[default]

BONUS #8 is a called "Playing with Taste" -

[playing with emotion image]

Knowing **what** to play and the skill to do it are vitally important.

But having the right heart and mindset behind the skill...

...are even **more** important.

In this video, you'll learn how best to use your newfound abilities in the worship setting. ...without getting in the way or being a distraction.

[default]

BONUS #9 - The *Top 25 Worship Chord Charts* pack.

I wanted you to be playing songs as quickly as possible.

[slowly scan up the page of a chart]

So I created a set of chord charts from the original recordings for you download and keep.

These are the Top 25 worship songs of 2018...all in the key of G.

So as soon as you finish MODULE 3: CHORDS IN THE KEY G, you can pull out the *Top 25 Worship Chord Charts* out and play them all!

[default]

So that's 27 "Learn It" sessions, 27 "Try It" Sessions, more than 200 "Practice It" videos...

The Music Theory Made Simple module...and all 9 Bonuses...

Add in the introduction section... you'll get guitar anatomy, tuning, and fingering and strings...

You'll get 4 demo video session called "Chords In Action" where I play and sing using the exact chords you'll be learning...

AND extra instruction about major and minor barre chords...

[slowly scroll the content outline on the website]

All this adds up to more than 300 HD videos of pro level content...

accessible any time and designed to work on any device.

In all my years of playing and teaching...

I've never seen another course like it...

[Bible verse image]

Our mission at the Worship Music Academy is to...

"equip the saints for ministry." (Ephesians 4:14)

And we had students who have taken this course and loved it.
