From The “**LTP Worship Guitar System**”

“BONUS #1 is video called “The Most Valuable Tool”.

In this bonus video, you’ll learn about the capo, why it’s so useful, and the **right way to use** it to **unlock your ability to play in any key!**”

BONUS #2 is a tool I created called “The Capo Cypher Sheet”

Once you learn how to use the capo, it’s not always easy to quickly know which fret to put it on to get to the key you want...

At best it can be a guessing game to find the right fret.

But with the “Capo Cypher Sheet” you can avoid all that.

It’ll show you exactly where to put the capo to get to the key you want...without guessing.

It’s almost like having a transpose button for your guitar.

BONUS #3, 4, and 5 are videos about working with chord charts, lead sheets, and number charts.

They give tips and insights on how to read them and lay the foundation for you to create them yourself.

BONUS #6 is a video called “Rhythm Guitar Dynamics”

In this bonus video you’ll learn tactics for playing in different section of various types of worship songs.

What would you play on the verse of a slow song?

What might you play on the bridge of an uptempo song?

What about the channel? What about the intro or the outro?

This video will help you know how to plan for these moments and play them the right way.

BONUS #8 is a called “Playing with Taste”

Knowing what to play and the skill to do it are vitally important.

But having the right heart and mindset behind the skill...are even more important.

In this video, you'll learn how best to use your newfound abilities in the worship setting. ...without getting in the way or being a distraction.
