

“Learn to Play Worship Piano Like A Pro... GUARANTEED OR Your Money Back!”

*Learn worship piano online from a former Nashville Pro.
NO previous experience required!*

Wouldn’t it feel great to be able to just sit down at the piano...anytime you want...and play the worship songs you love?

Or to have the confidence and skill to play the piano or keyboard on your worship team at church?

How about leading worship from the piano?

Well...believe it or not...

All these things are finally possible...

Even if you’ve never played the piano before in your life!

Hi. My name is Jared Messer

And I’ve created a system that allows anyone to learn to play worship piano like a pro.

It doesn’t matter how much experience, skill, or musical ability you currently have...

And it doesn’t take years to master.

You can be up and creating professional sounding music in a matter of days.

Now you may be thinking, “yeah, right!”.

But it’s true.

It’s already working for students of all different skills and backgrounds.

Let me explain how it works.

Learning to play the piano the traditional way can take years.

It’s day after day and week after week of working on scales, exercises, note reading, and practice.

But what if, instead of all that...

You only focused on the things you needed to know to play worship piano.

Then...what if you took those few complicated skills...and broke them down into even smaller steps...

Steps that were simple to learn and easy to play?

From there...you could just combine these simple skills together...and you'd be playing!

Well...that's exactly what I did.

You see...as a professional musician...

I began to see patterns in the way pros played.

The patterns weren't overly complicated but sounded fantastic!

Well...based on those patterns I created something called "Worship Piano Skill Sets".

And this is really what makes it possible learn to play so quickly.

Ever heard the saying that "a journey of a thousand miles begins with one step?"

Well...learning to play the piano can seem like that kind of a journey...

Very far off and seemingly impossible to reach!

But from the moment you start using "Worship Piano Skill Sets"...

You understand why they dramatically shorten the time and effort it takes you to get you there!

But even more than just getting you there quicker...

You'll get professional sounding results at the same time.

Now...we had a piano training course on our site already called Worship Piano: Beginner to Pro.

And the response to it was very positive.

People like Messon JJ said:

"The very best! I will go over and over watching this course. I believe without a doubt, my worship piano playing will tremendously improve."

- Messon JJ -

"I've already started playing songs

I thought I would never get. I have
studied notes but never chords and
have never been instructed in chords.

This is so great!!"

- Steven O. -

"This course was the best investment
I could have made and am so glad
I found it. Jared presented and distilled
musical concepts in a way that was
so easy to implement."

-Erik

But...even with all the great results we were seeing...

I knew we could still give more!

So I thought...

What if I took the strongest parts of Worship Piano: Beginner to Pro...

And combined them with the "Worship Piano Skill Sets"?

So that's what I did...

We kept all the best elements of that highly rated course...added in the "Worship Piano Skill Sets"...

But then we MASSIVELY expanded it even further...by adding a ton of other stuff!

And since it grew out of the original course....we called this new system...

Worship Piano: Beginner to Pro 2.0.

Worship Piano: Beginner to Pro 2.0 is the culmination of decades of learning, teaching, and playing...

Without a doubt...it's the ultimate worship piano learning system.

Let me tell you about everything we've included in **Worship Piano: Beginner to Pro 2.0.**

First...the "Worship Piano Skill Sets"

Each of the 4 Skill Sets has two parts. Learn and Practice.

In the "Learn", you'll watch a short video showing you exactly how to do that skill in a particular key.

And then in the "Practice", you perform that skill to a metronome.

For your convenience, we've included ALL the practice videos for you.

They range from slow for absolute beginners all the way up to pro level speeds.

All you have to do is click play and follow me.

And... the practice sessions use something I like to call "song style"...which means they feel more like songs than practices.

So if you were thinking this was filled with boring, monotonous exercises...think again!

These practices are actually fun!

The idea is that each "Skill Set" is developing in you a different element of playing worship piano.

Kind of like targeting specific muscles in a workout to maximize your fitness?

We do that with each of the 4 "Skill Sets".

Let me tell you about 'em.

1-5 SECTION

The first one is something I call 1-5.

Finger independence in the right hand is important for playing melodies and runs.

And our 1-5 Skill Sets make it easier to do both.

You see...in worship music, anytime you play a melody or run of notes, it's almost always in the right hand.

That's why our 1-5 Skill Sets focus mainly on the right hand.

First, the 1-5 Skill Set helps you'll learn the notes of the scale much faster...

But it also develops your finger playing speed, precision and dexterity.

ERH SECTION

The 2nd "Worship Piano Skill Set" is ERH which stands for "Easy Right Hand"

ERH is a Skill Set...but also MUCH more

It's also a style of play I discovered many years ago.

With it, you can play just about ANY worship song with the same pattern over and over.

But it sounds amazing and VERY professional.

I've used ERH in live performance, studio work, and leading worship.

It always creates a rich, modern contemporary worship sound.

And it's brain dead simple.

Quick story.

I taught my 10 year old daughter the basics of the ERH Skill Set...

She then used it to play piano along with me on vocals and guitar for a family funeral

I played the artist recording for her a few times and we had just 3 rehearsals!

But she killed it! ...playing it perfectly.

People couldn't believe it when I told them she heard the song for the first time 3 days before!

I know it'll work just as well for you.

And after you progress through the practices in more than one key...

...All the keys are here...

You'll be able to sit down in any setting, with just about any song...

And almost INSTANTLY be able to play along like a pro.

It's really crazy.

ELH SECTION

The 3rd Skill Set is ELH which stands for Easy Left Hand.

When playing contemporary worship music...it's not easy to know what to do with your left hand.

Especially when you might only have a chord chart or lead sheet.

Well...I realized at one point that I use a simple formation in my left hand...

And I use it almost ALL the time.

It changes a little...but it's basically the same thing...OVER and OVER!

But that's not to say it's out of place or sounds bad...

Quite the opposite.

It's actually the same thing you hear on most recordings...

And once you Learn and Practice the ELH Skill Set, you'll see for yourself how easy it is...

And then you'll always know what to play in the left hand.

ERH SECTION

Back in high school...I stumbled on something.

There was a pop song I learned to play (I won't say which one)...

But the main progression (or chord pattern) in this song used almost every chord that you play in a major key.

So I thought...

If I could change this a little...

And learn it in every key...

I'd be able to play any song in EVERY key.

So I started playing this chord progression over and over...and made it into a game.

I tried to see how fast I could play it.

I'd go up and down from one key to the next until I could play it in EVERY key without thinking.

In a pretty short amount of time...I got really fast.

It catapulted my skill in playing worship music.

And even now...all these years later...

I see how that little progression was HUGE for me!

THAT progression is the last Skill Set...

I call it ECP, which stands for Every Chord Progression.

And once you learn it and begin to practice it in different keys like I did....

You be able to achieve a level of playing you only dreamed of before.

It's really is my secret to being able to improve easily and play in any key without really thinking.

Can you. imagine how it would feel to be able to play ANY song in EVERY key equally well WITHOUT practicing?

The ECP Skill Set makes this possible.

So...4 Worship Piano Skill Sets...

1-5 for finger independence and dexterity makes melodies and runs easier.

ERH allows you to sit down and play ANY song with an instantly pro sound.

ELH shows you exactly what to play with your left hand at all times.

ECP helps you move between keys without even thinking.

Once you learn these the right way...and practice them with me...

The sky is the limit for you on piano!

All 4 Worship Piano Skill Sets, Learn and Practices are included.

This alone adds to more than 300 videos!

But more than just the Skill Sets, I wanted to give you more....

That's why we've included Piano Music Theory Made Simple.

We cover all the basics like notes, scales, triads, chords, intervals, inversions, arpeggios...and more...

All geared specifically for worship music.

But you get to something I call "Color Chords".

These are richer sounder chords you can use to create that contemporary worship sound you hear on the radio.

Also...

We give you downloadable PDFs for EVERY video in the "Piano Music Theory Made Simple" module...

Including all the "Color Chords".

Also you get videos explaining...

Time signatures...

Playing with a sustain pedal..with "pedal cam" so you can see exactly what I'm doing with my feet.

AND videos on reading chord charts, number charts, and lead sheets.

Also included are

"Learn" videos to walk you through things like...

Major scales with correct fingerin...and all the triads....

Along with the 4 "Worship Piano Skill Sets".... for EVERY Key!

Yes! We provide videos explaining the Major scale, all triads..

with the Skill Set "Learn" and "Practice" videos for all 12 keys!

And....every "Learn" video has corresponding PDF you can download and keep.

These show everything I talk about in simple, clear graphics.

And the practice videos have tempos from slow to fast so they'll work for ANY skill level.

These are really ALL the practices you'll ever need!

And each one is fun and easy to follow.

We've also created Practice Logs for you.

They're designed specifically for Worship Piano: Beginner to Pro.

With them you can track your progress every day!

You can download and print these...OR fill them in an keep them on your computer or mobile device.

And on top of ALL this...

I've also thrown in 10 FREE Bonus videos for you!

In each of these I share other concepts and skills to help you go even farther.

BONUS 1

Bonus 1 is a video called "Melody Is king".

In this video I talk about the importance of staying out of the way of the melody.

Leaving space for the singers or congregation is crucial for worship music.

It's also a key element of creating a professional sound.

BONUS 2

Bonus #2 is a video called “Know Your Place”.

The piano is a powerful instrument.

So powerful in fact that in a band setting...it's very easy for it to step on other instruments and muddy the sound.

This video gives some insight into how to play in various settings and band sizes...

So you don't overstep and make a mess.

BONUS 3

Bonus #3 is “Less Is More”

The great French composer, Claude Debussy, said, “Music is the space between the notes”.

Believe it or not, most pros focus more on when NOT to play...

What you DON'T play is the biggest difference between amateurs and pros.

This video gives some insight into the power of playing less.

BONUS 4

Bonus #4 is Playing Under Someone Speaking.

This skill can be very powerful and add to the emotion of the moment...if you do it right.

But if you do it wrong...it can be as distracting as a train wreck!

In this bonus video, I improvise and demonstrate how to do this the right way

I also talk through the things you need to consider if/when you find yourself in this position.

BONUS 5

Bonus #5 is Ear Training Basics.

Over the years I've developed a pretty good ear for music.

And when it comes to worship music, I can usually play a song after hearing it just once.

This video begins to peel back the veil of what some see as a “musical super power”.

BONUS 6

Bonus #6 - Secrets to Memorizing Songs Fast

Worship music is filled with patterns.

When you can recognize the pattern...memorizing songs becomes easy.

BONUS 7

Bonus #7 deals with Passing Chords and Color Chords.

These are the notes and chords you can add between the written chords.

When you know how and when to add them, you'll play with a richer sound and become a more creative player.

BONUS 8

Bonus #8 - Putting It All Together.

Here I improvise a demo of all the things I've been discussing so you can see them in action.

It's essentially my playing style explained with stops and starts so you can see exactly what I'm doing...

And how you can use them in your playing.

BONUSES 9 and 10

Bonuses #9 & 10 are walkthrough demos.

I explain how I'd approach playing 2 different contemporary worship songs.

You'll be able to apply insights in these two videos to lots of other situations.

So...with Worship Piano: Beginner to Pro 2.0...

You get...

The major scales, fingering, triads, and the 4 Skill Sets...in ALL 12 keys!

You get...

Piano Music Theory Made Simple to help you go deeper in your musical understanding.

PDFs for all the “Learn” and music theory sessions.

All the Practice Sessions you’ll even need included... so you’ll know exactly what to work on.

Just click play and follow along,

Practice Logs to track your progress...

And ALL 10 Bonus videos.

But you also get,,,

Videos on time signatures, playing with a sustain pedal, reading chord charts, reading number charts, reading lead sheets, color chords, and more!

All together it's nearly 400 videos and more than 80 PDFs of support materials!

I've seen a lot of piano teaching over the years...nothing comes close to Worship Piano: Beginner to Pro 2.0.

Without a doubt...it's the ultimate worship piano learning system.

Now...as I was preparing to release Worship Piano: Beginner to Pro 2.0...

I started looking online to see what others were charging for piano training.

And I was shocked!

Based on what other websites are offering, we could easily charge \$100, \$150, \$250... or more for our system!

But our mission at the Worship Music Academy is to “equip the saints for ministry...” (Eph 4:12)

That's why we're only charging a fraction of those prices...

In fact...

TODAY...you can get Lifetime Access to Worship Piano: Beginner to Pro 2.0...

For the same price that some websites charge per month...

And about 1/3 of the cost of one lesson with a Nashville Pro.

You can enroll RIGHT NOW...

For just \$29!

For that price, you get the entire Worship Piano: Beginner to Pro system...

All Skill Sets, content, practices, theory sessions, support materials, bonuses...

ALL for less than one meal at a decent restaurant!

But this is EVEN better...

Because you'll have UNLIMITED LIFETIME ACCESS...

So you can keep coming back as often as you like and for as long as you like!

But listen...I know it's not easy to trust someone you don't know.

That's why you're also getting our "30 minutes or 30 days" guarantee...which goes like this:

Enroll in Worship Piano: Beginner to Pro 2.0 today...

And if you're either head-over-heels thrilled with everything...

Or you can send us one email anytime in the first 30 days...

And we'll give you a FULL refund. No questions. No hassles.

That could be within the first 30 minutes...

Or 29 days, 11 hours and 59 minutes after you sign up.

Either way...just send us one email...and we'll happily refund your money and thank you for trying us out.

Honestly, I'd feel guilty keeping your payment of you weren't happy!

So...

If you've ever wanted to know the awesome feeling of sitting down and playing the songs you love...

Or the joy of worshiping on your own at the piano...

Or having the confidence and skill to play in a worship band or even lead worship from the piano...

Now you finally can!

And Worship Piano: Beginner to Pro 2.0 is the way to get you there...

So don't wait!

Click the button below and get started RIGHT NOW!

God bless you and I'll see you on the inside.
