

The LTP Worship Guitar System
YouTube Ad #4

Would you like to learn to play worship guitar?

Well, I've created a method that's helped tens of thousands of people all over the world learn to play very, very quickly.

And not only that, but to get a professional, contemporary worship sound at the same time.

You know the traditional way to learn guitarists to go to lessons every week learning scales and exercises and can stretch in the months, weeks or even years to learn how to really play.

Or you can browse YouTube videos one after another, piecing together lessons.

But instead of that, I made some tweaks to the way people normally learn, and by doing that, we've rapidly sped up the process.

Our students can learn to play their first song in as little as ten days.

I know that sounds amazing, but ten days to learn to play is what we've been seeing with our students.

We've got hundreds of reviews from people all over the world, all different skill levels and backgrounds learning to play very quickly.

Not only that, students who already play are finding this course is helping them develop into a professional sound that they could never capture on their own.

Now we've got a video on our website that explains exactly how this whole system works and why it's been working so well for people.

It's free to watch.

You don't have to give us your email or anything. We don't pressure you to do that.

We're a Christian company. I'm a believer.

I'm a former professional musician, and it's my mission at the Worship Music Academy to equip the Saints for ministry.

And that's what we've been doing for people all over the world.

So if you want to learn how to play guitar really, really quickly in a Christian environment.

I hope to meet you, sir. God bless you.
